## STEAMER BURNED.

Disaster on Lake Huron, Off Lexington, Mich.

NINE LIVES BELIEVED LOST.

A Terrible Sea Raging at the Time the Fire Breaks Out on the Boat—Part of the Crew Picked Up and Safely Land.

DETROIT, Oct. 21.—Word has just been received of the burning in Lake Huron off Lexington, Mich., yesterday morning of the Lake Superior Transit company's freight steamer, Annie Young. Nine lives are reported to have been lost by the upsetting of a small boat.

There was a terrific sea running at the time the fire broke out. Seeing that there was no hope of saving the barge, the captain had the men lower the boats. The crew, consisting of about twenty men, crowded into two boats. One of the boats was missed in the heavy sea, but the other was picked up by the steam barge William Edwards and brought here.

Capt. Hugh Miller was in charge of the Annie Young, and his two engineers were in the res-cue party, and they chartered the tug Kittie Haight and have gone back to where the burning barge was abandoned to look for the missing small boat and its crew of nine men.

The Annie Young left Port Huron at 6 o'clock yesterday morning with a cargo of coal and general merchandise for Escanaba and Gladstone. She was owned by the Anchor Transportation Company, of Erie, Pa., was built in 1889 and valued at \$30,000. She was a mass of flames when Capt. Miller and the crew with him in the lifeboat pulled away from her, and she undoubtedly went to the bottom.

A later special to The News from Port Huron, Mich., says: When the steamer Annie Young caught fire the captain and crew took to the boats, nine going in one boat and thirteen in the other. The thirteen were picked up by the steamer Edward Smith, but the other boat was upset and all its occupants drowned. Among the lost were: George McManus, of Port Huron, who only shipped yesterday morning; J. Connolly, J. Crosby, T. Gallagher and George Connolly.

TRAIN ROBBER CAUGHT.

A Former Employee of the Company Locked Up at Bellefontaine.

BELLEFONTAINE, O., Oct. 21.—A man giving the name of H. H. Williams has been arrested here for the Adams Express robbery on the Cincinnati, Sandusky and Cleveland road on the 2d inst. He is supposed to be a former employee of the Cincinnati, Sandusky and Cleveland railway at Urbana, named Smith. Diamonds and \$300 in wet bills were found on him on his return from a buggy ride into the country to the farm of John McCullough yesterday afternoon. His suspicious actions caused Mr. McCullough to notify the sheriff and secure his capture.

Under the barn of St. Clair Jewell, the owner found a lot of empty watch cases, an express envelope addressed to Arch Scudder, the Adams Express messenger, who was robbed Oct. 3, also some of his private papers. The money package was addressed to Simeon Schacht, Sandusky, O., consigned by B. Sultzbach, Dayton, O., and had contained \$120.

In addition to these are Arch L. Scudder's receipt for \$400 from R. G. Carter, local secretary, division No. 41, Express Aid society, for contribution No. 209, Sept. 15, 1890. Also the envelope addressed A. L. Scudder in lead pencil, believed to have held his salary, as stated by him. The watch cases, four in number, are Deuber make, three stem and one key winder.

JAIL BIRDS AT LARGE.

All the Prisoners in the Vincennes, Indiana, Jail Escape.

VINCENNES, Ind., Oct. 21.—Saturday night all the prisoners in jail here decamped through the dry-air closet. Among those that obtained freedom were three who were awaiting trial for stealing wheat and other thefts in and about Wheatland, twelve miles east of this city.

Sol. Gargis and his son John and Joe Peak were in jail on charges of larceny. That same night or early Sunday morning some burglars broke into the confectionary store and barber shop of Joe Scott, in Wheatland, and they were frightened away by a traveler who got off the train about 2 o'clock.

Monday morning the barn and all its contents, including a horse, of Mrs. Frances McKinley, widow, near Wheatland, were burned. Loss about \$3,000.

The people there are terrified and afraid of their lives since the escape of these prisoners.

Italians Arrive.

NEW ORLEANS, Oct. 21.—The police arrested forty or more Italians at the grocery of Carlo Graffero, at Burgundy and Conti streets. The police had seen many Italians dropping into the place in twos and threes, and believing that something was wrong, forced their way in, and found a man addressing a crowd in Italian. Charging that it was an unlawful assemblage, all persons present were arrested and carried to jail.

Twelve People Drowned.

PHILADELPHIA, Oct. 21.—A private cablegram from China received yesterday in this city stated that Capt. Fownes, his child and ten of his crew were drowned when his ship Lizzie C. Troop went ashore on the Loo Choo islands, while bound from Philadelphia via Shanghai to Puget sound. The captain's wife, the mate and the balance of the crew were saved and are safe at the Loo Choo islands.

## TWO SUDDEN DEATHS.

One Effect of Going Into Cigar Saloons.

CINCINNATI, Oct. 21.—A man, supposed to be Frank Diemer, fell down whilst in Petri's saloon, southeast corner of Court and Vine streets, yesterday morning about 9:30, and expired immediately. He was at once conveyed to the morgue, where his body awaits fuller identification. The body is that of a man about 40 years of age, and is about 5 feet 6 inches in height, complexion dark, brown hair and light brown mustache, wearing a Derby hat and a dark cheviot suit of clothes. In one of the pockets was found a photographer's weekly payment ticket, upon which "Frank Diemer" was written. On his left arm he bears the initials F. D. Hemorrhage is supposed to have been the cause of his death.

Gustav Gilroy, a bartender for Frank Boudede, 188 Race street, died suddenly at 10 o'clock. Dr. McCarthy was called in. Heart disease was the supposed cause of death.

## BIG EXPRESS DEAL.

Consolidation of the United States and the Adams Express Companies.

MILWAUKEE, Oct. 21.—The Daily Journal prints the following: A rumor has reached Milwaukee, founded upon the best of authority, which, if correct, means the most gigantic express deal that has ever occurred in this country, and means the consolidation of the United States and the Adams Express companies.

For sometime quiet rumors have been circulated around among the officers and general agents of the Adams and the United States Express companies in the west to have negotiations pending looking to a complete consolidation of those corporations. The rumored consolidation is to be in the nature of a merging of the United States into the Adams, by the transfer of stock, much as the St. Paul company bought the Milwaukee and Northern railroad.

River Steamboat Purchased.

CINCINNATI, Oct. 21.—A deal of more than ordinary importance in river circles was consummated Saturday afternoon. It was the purchase by the Memphis and Cincinnati Packet company of the steamer Thomas Sherlock from the Southern Transportation line. This means a consolidation of the Cincinnati, Portsmouth and Big Sandy, Louisville Mail line and Big Sandy and Portsmouth companies, also the control of the river business from Cincinnati to New Orleans now covered by the Southern Transportation line. Twenty thousand dollars cash was the price paid for the Sherlock. She will continue in the New Orleans trade under the auspices of the Southern Transportation line for the present.

Among the Prize Fighters.

NEW ORLEANS, Oct. 21.—Tommy Warren picked up \$900 easily here last night by defeating Ernest Boecher before the Columbia Athletic club. The fight lasted a round and a half when Warren landed his left over Boecher's heart and his right on the jaw and Boecher was out. Warren wants to fight Ike Weir or Cal McCarthy. Jack Dempsey has signed articles to fight both Fitzsimmons for a purse and the middle-weight championship of the world before the Olympic club in this city about the middle of December. A telegram from Dempsey says the articles are on the way.

Murder and Suicide.

EL PASO, Tex., Oct. 21.—A murder and suicide occurred in this city yesterday. Monsieur Leblanc, a Frenchman, and a notorious woman arrived here Friday evening from Silver City, N. M., and stopped at the St. Charles hotel. About 5 o'clock in the morning two pistol shots were heard, but the shooter was undiscovered until noon, when their room door, being broken in, Leblanc and the woman were found side by side in bed dead. Both had pistol shots through the head. Leblanc had evidently shot the woman and himself.

Children Fatally Scalded.

DUBUQUE, Iowa, Oct. 21.—Two children of Nicholas Brandt, aged respectively two and three and one-half years, were fatally scalded last night. One of the children lived but a short time and the other died this morning.

## SPANISH TARIFF LAW

Resolutions of the Havana Chamber of Commerce.

FAVORING RECIPROCITY.

An Address to the Minister of the Colonies—The Financial Condition of Cuba—Other Dispatches From the National Capital.

WASHINGTON, Oct. 21.—An address and resolutions passed by the Havana chamber of commerce favoring reciprocity with the United States have been received at the state department. The address is to the minister of the colonies, and treats of the reform of the Spanish tariff laws. The financial condition of Cuba is referred to as one which is "far from being prosperous and which may become even worse than it now is if, as is possible, the principle of reciprocity is definitely adopted in the tariff of the United States, with which nation our commercial relations are so important, and if the changes made in our tariffs are not such as to correspond with that reform."

After the Spanish-Cuban customs laws have been reviewed and certain changes in them demanded, it is stated to be the unanimous opinion of the commercial bodies of Cuba that almost all the markets of Europe are closed to Cuba's principal product—sugar—since European countries are also sugar producers; so that, as the facts are constantly d-privig, the greatest market for Cuban goods is the nation whose ports lie at her very door—the United States. The United States are to-day the regulators of the commercial market, just as England is of the money market. The lawmakers of the United States, the address declares, know that by imposing heavy duties upon the manufactured goods of Europe they favor the development of their own industries, compel the well-to-do classes to pay indirect taxes, and that they have no cause to fear reprisals, as European nations have to fear them from each other, because such reprisals would have to apply to cereals, meats, petroleum, etc., which are the very articles that those nations absolutely require.

"Your excellency," the address adds, "has a proof of this incontestable truth in Spain itself, which is par excellence a wheat producing country and which, in spite of that fact, is obliged to make good the deficiency of its own wheat crop by importations from the United States. The question is resolved to a proposition to the United States like this: You give us bread and we give you sugar."

The addresses urges upon the minister of colonies the importance of promptly meeting the situation by a reciprocity treaty with the United States. Especially is this urged to take advantage of the opening for a market in the United States.

A Tariff Request.

WASHINGTON, Oct. 21.—Applications have been made to the treasury department by importers who had tobacco in bonded warehouses prior to the passage of the act of Oct. 1, 1890, for permission to withdraw it at the weights ascertained at the time of withdrawal. These applications are based on the second proviso of Section 50 of the tariff act which prescribes that "when duties are based on the weight of merchandise deposited in any public or private bonded warehouse said duties shall be levied and collected upon the weight of such merchandise at the time of its withdrawal."

Assistant Secretary Spaulding says that after a careful consideration of the question, the department is of the opinion that the applications cannot be granted, inasmuch that under the first proviso of the section special privilege is conferred upon merchandise, which, like tobacco, is subject to increased duties under the new tariff act of allowing it to be withdrawn for consumption at any time prior to Feb. 1 next upon the payment of duty at the lower rates prescribed by the old tariff acts. Gen. Spaulding says: "The department must decide that when the importer shall elect to withdraw his merchandise under the first proviso, a re-weighting at the time of withdrawal cannot be allowed for the reason that the goods so withdrawn by virtue thereof, must be treated as exclusively subject to the provisions of the law in force prior to the passage of said act."

Not Time to Move.

WASHINGTON, Oct. 21.—Attorneys representing the interests of the white settlers in the Choctaw nation were at the interior department yesterday urging that their appeal for an extension of time for the removal of themselves and stock, held to be illegally on the reservation, be favorably considered. The attorneys state that telegrams received from settlers complain that the time fixed for their removal (Nov. 1) is entirely too short for the necessary preparation of their stock. They contend that if they are compelled to leave on the date fixed many of them will be ruined. The appeal has been pending before the secretary for some time. It is probable that, in view of the short notice given, he will modify his order by extending the time.

Census Returns.

WASHINGTON, Oct. 20.—The census office has announced the population of the state of Oregon to be 312,490, an increase during the decade of 127,722, and the cities and towns in the state as follows: Astoria 7,071, increase 4,268; Albina 5,104, increase 4,961; Portland 47,294, increase 29,717; East Portland 10,481, increase 7,547. The corrected population of Wisconsin is 1,688,677, an increase of 363,200. The Oneda Indian reservation, lying

in Brown and Outagmie counties, was not included in the original announcement. Additional schedules have also been received, which are now added.

Silver Purchases.

T OOK HIS OWN LIFE.

A Noted Architect Ends His Existence With a Pistol.

WASHINGTON, Oct. 21.—A. B. Mullet, who was supervising architect of the treasury from 1865 until 1878, committed suicide at his home here about 6 o'clock yesterday evening, by blowing his brains out with a pistol. Melancholia, with suicidal intent, the result of business reverses of late years coupled with ill-health, undoubtedly led up to the rash and fatal act.

Mr. Mullet was born in England fifty-six years ago. He came to this country when a boy and was appointed to a clerkship in the supervising architect's office by Secretary Chase in 1862. Subsequently he was promoted to the position of supervising architect, a position he held until 1878, when, on account of dislike to Secretary Bristow, he resigned.

Mr. Mullet designed the war, state and navy department buildings in Washington, as well as a number of other public buildings in New York, St. Louis, Cincinnati, Portland, Me., and other cities.

TORPEDO BOAT LOST.

A Severe and Disastrous Storm Off Nova Scotia Coast.

HALIFAX, N. S., Oct. 21.—The torpedo boat which was recently lost at sea, and which was picked up by the American schooner Samuel R. Crane, has again been lost. The warship Buzzard was sent from here to North Sydney to tow the boat here. She started early Friday, and that same night encountered a very severe gale.

During the height of the storm the torpedo boat broke loose and was totally lost, breaking in two. The officers of the Buzzard say it was the worst storm they ever encountered, and at one time it seemed as if their own ship would succumb. As it was she was badly damaged, losing her jibboom and foremast. The Crane has been awarded \$500 for her trouble in towing the torpedo boat into North Sydney.

How a Coward Saved His Life.

MEMPHIS, Oct. 21.—F. K. Peterson, an employee of the Illinois Central road, shot and killed his wife at 10 o'clock last night. Peterson returned home unexpectedly, and found his wife and S. M. Maxwell in a compromising situation. The woman was sitting on Maxwell's lap with her arms about his neck. The husband quickly drew a revolver and fired twice at Maxwell, who drew the woman in front of himself, and she received both bullets. The woman died within fifteen minutes. Maxwell was a lodger in Peterson's house. Peterson was arrested and lodged in jail.

Killed His Wife.

MEMPHIS, Oct. 21.—Last night R. K. Peterson, a mechanic, employed by the Illinois Central Railroad company, shot and killed his wife at their home in this city. He had been away from home, and as he entered the house he found Mrs. Peterson and a boarder named Maxwell in a compromising situation. Maxwell escaped, but Peterson shot his wife in the left breast, death ensuing in a few minutes.

Lottery Shut Out of the U. S. Express.

NEW YORK, Oct. 21.—The United States Express company has issued peremptory orders to all of its agents not to receive money, tickets or lists of drawings from the Louisiana Lottery company, or in any way to assist in the transaction of lottery business, and says that any statements that the company is acting to the contrary are false.

# **EVENING BULLETIN.**

DAILY, EXCEPT SUNDAY.  
**ROSSER & MCCARTHY,**  
 Proprietors.

TUESDAY, OCTOBER 21, 1890

A PARTY writing from Carter says that county will give Paynter a majority. Carter is one of the Republican counties in the district, and it is rather significant that she had no delegate in the Republican convention last Saturday.

**"Poor old Captain Bruce."** This remark was uttered by one of the most prominent Republicans in Maysville, when speaking of the convention last Saturday. He, no doubt, pitied the Captain for allowing himself to be drawn into this race.

The Ugebladett, one of the most influential of the Scandinavian papers published at the capital of Minnesota, has abandoned the Republican party and come out for the Democratic ticket, State and Congressional. The Ugebladett draws the line at the McKinley bill.

The American Economist, a rank protection organ, says the price of silk has not been advanced by the McKinley bill. This will be good news to the poor people of the country. They dress in silks all the time, you see, and it would be rather hard on them if the price went up.

The Republicans of this district haven't any nominee for Congress. Captain Bruce is Judge Thomas' man. The lawyer convention Saturday didn't indorse Bruce's nomination. The delegates simply "resolved" they would vote for him. There are a great many Republicans here in Maysville who will vote for Paynter November 4th, and a great many more who will not vote for Bruce.

HERE, you Democratic Alliance men. The Republicans count on your supporting Captain Bruce in the present contest, but read what Judge Bennett said last Saturday. Here it is:

I am a personal friend of Captain Bruce, have known him a long time. He is a Republican, and if we send him to Congress he will vote with the Republicans every time.

Wonder if any Democrat will vote for Bruce? Not much.

The Atchison (Kan.) Champion, a Republican paper, notes that not a single Republican convention held in that State has had the courage to endorse the McKinley bill. The Republicans in this district are in the same boat as their Kansas brethren. At the convention here Saturday, they were afraid an endorsement of the bill would lose them votes. Their silence on the subject won't help the matter.

A. M. WARNER, a large manufacturer and importer of New York—and a life-long Republican—predicts that under the McKinley bill within one year \$100,000,000 of capital will be thrown out of its present occupation, and with this retirement of capital and decline of commerce thousands of employes will be thrown out of employment. Foreign and skilled labor is admitted free and American labor has to compete with it. Thus the American workmen have to pay for it.

The Chicago Herald remarks that for the decade 1878 to 1887, both inclusive, the tariff protection paid upon iron, steel and their resolvers amounted in gross to \$560,000,000, while all the plants for their manufacture were worth but \$350,000,000. "That is one schedule only of a score in a tariff bill," adds the Louisville Times, "and under its operation, millions of people were robbed of \$560,000,000 for the benefit of a few Carnegies, Distons, Oliviers and other millionaires, made so by the operation of law."

OFFICIAL returns show the total number of votes cast at the recent State election in Idaho to be 18,008. Let's see. That's about half as many votes as are cast in the Ninth Congressional district. But these 18,008 voters are now represented at Washington City by one Congressman and two United States Senators. Idaho is one of the "mining camps" admitted into the Union as a State by the Republicans at the late session of Congress. It was a case of rank injustice, but what care the Republicans for justice when it stands in the way of strengthening their control of the National administration?

## **A Convention of Lawyers.**

The Republican convention last Saturday was called to order by a lawyer, was presided over by a lawyer and had a lawyer for Secretary and another lawyer for Assistant Secretary. There were five lawyers on the Committee on Resolutions, nearly every speech made was made by a lawyer, and almost every motion offered was offered by a lawyer. In fact, it was a convention of lawyers.

And these lawyers told the Republican farmers of this district who to vote for for Congress.

Don't all laugh at once.

## **BRILLIANT CLOAK OPENING**

On the 22nd and 23rd instant, in all the best and most popular styles, far surpassing all others, being from the best manufacturing, who will send two of their best men to the opening. We extend to the ladies a cordial invitation to attend this elegant display.

Respectfully,  
**D. HUNT & SON.**

### **HIGHER PRICES**

Brought About by the High Tariff, and the Republicans are Responsible for It.

The Shelbyville Sentinel says it interviewed some of the merchants of that city this week to see what effect the McKinley Tariff bill had had on prices of goods.

"The answer," says the Sentinel, "in nearly every instance was that goods had been marked up, anywhere from 15 to 100 per cent. Here are a few instances selected at random:

"A suit of clothes, made in whole or in part of woolen goods, that was worth \$8 ten days ago, is now worth \$9.50. Trousers that cost you \$4 ten days ago, will now cost you \$5. An overcoat which you could have bought last week for \$12, will cost you now from \$14 to \$15. A cloak which any of our merchants would have sold you cheerfully for \$8, he must now charge you \$9.50 for. Blankets, which sold for \$5, have been marked up to \$6.50. The dress goods you have been buying for \$1, cost you now \$1.25 to \$1.50. Carpets, which last week sold for 60 cents, can not be bought to-day for less than 65 to 80 cents. Some class of stockings have increased in cost from 50 cents to 65, cotton goods from 8 1/2 cents a yard to 9 1/2 cents, a \$1.50 corset to \$1.75, a dinner set, which you bought a few days ago for \$5, will cost you now \$6.75. A tin bucket that cost 30 cents, now sells at 40 cents. If you want an ax, which you could have bought last week for 90 cents, you must now pay \$1.25 for it, or a pocket knife, which retailed at 75 cents, you must now pay \$1 for it. If you are going a hunting, a gun, which you could have purchased of any of the stores here, ten days ago, for \$25, will now cost you \$33, and your loaded shells, which you have been buying at \$1.75 per 100, will now cost you \$2. If you are going to paint your house, you must pay 50 cents on the 100 more for your white lead and two cents more per gallon for oil than you would have done had you painted Oct. 1st. Common window glass has advanced 30 per cent., tin plate 50 per cent. and little things like buttons are clear out of sight.

"These are not solitary instances. The advance has been made all along the line—and, mark you, these are only the first advances. Our merchants had partly laid in their stock of goods before the great advance came. When this stock is exhausted, and they come to buy again, they will have to pay the full rates prescribed under this bill, and then look out!

"Look at these prices, you people who have thought the tariff did not personally affect you, and say whether the tariff is or is not a tax, and whether you do or do not pay it."

### **IT COSTS MORE TO LIVE**

And the McKinley Bill is Held Responsible for It.

CHICAGO, Oct. 17.—The advance in all kinds of clothing and wearing materials, and other articles affected by the McKinley bill has been followed during the past few days by a decided rise in the price of provisions. No one has asserted that eggs, beef and mutton, butter and vegetables and other necessities of the daily table have been affected by the latest tariff bill, but all the same the provision dealers seem to have got it into their heads that as every branch of retail industry is marking up its prices they have a right to be in fashion. Many of the leading restaurants have increased their rates on the bills of fare altogether. Should prices continue, it will cost both rich and poor fully 20 per cent. more this winter for the necessities of their table than it did a year ago.

### **GEMS**

The Cincinnati Enquirer's Pithy Points on the Workings of the McKinley Bill.

The wealth ladies of Major McKinley's district will be pleased to learn that his bill does not increase the tax on silks or laces.

Under the McKinley bill you can buy furs as cheap as ever, and the tax on false hair is reduced one third. Ah, there!

The McKinley bill reduces the tariff on corks nearly one half. But what is the earthly use a cork if you have nothing to put it into?

If you happen to shiver in your sleep this coming winter, reflect that the McKinley bill exactly doubles the old war tax on quilts.

Perhaps it might be as well not to carpet your floors this winter. The McKinley bill nearly doubles the tax on the cheaper grades.

Do not change your stockings too often. They may wear out. And if they are worth \$2 per dozen, then the McKinley bill taxes them just 90 per cent.

Do not break your lamp chimneys. The McKinley bill taxes them to the extent of 60 per cent., so that they reach the consumer at just about twice what he ought to pay for them.

Be careful about blowing your nose on that handkerchief. The McKinley tax on your nose-wiper is 35 per cent. And if the "wipe" happens to be hem-stitched, then the tax is 60 per cent.

Will the man of modest means kindly observe that on shirts and drawers valued at \$1.50 per dozen the McKinley bill places a tariff of \$1 direct and an additional 35 per cent. ad valorem; while on the same articles valued at \$7 a dozen the tax is only \$1.50 direct and 40 per cent. ad valorem. Perhaps it would be cheaper to buy the seven-dollar drawers rather than the one-fifty drawers. But you can not always do it, you know.

### **Democratic Principles.**

## **"The Happy Days of Childhood."**

Everybody loves children, but prudent parents deplore the expense of keeping them respectably shod. This difficulty is greatly lessened by buying **MUNDELL'S SOLAR TIP SHOE FOR CHILDREN.** Twelve years ago when these Shoes were first placed upon the market by John Mundell & Co., they were instantly accepted by the public, and each succeeding year has marked a steady advance in their widespread popularity and sale. To the many thousands of parents and guardians, all over the land, who know the

We can say nothing further of the high standard of excellence you know the Shoes to possess. If this should meet the eye of any who have not investigated their merits, we simply say "try them once." If we can induce you to buy one pair the victory's won. Such confidence do we place in the wearing quality and general adaptability of these goods for children's wear, that after the first pair we unhesitatingly count on you as a regular customer so long as children's feet make music in your house.

HOP tea is the latest thing in the way of a drink in England. The beverage is said to be far beyond the flavor of any tea known. From a medical standpoint it is invaluable for dyspeptics, but it is not cheap. It costs about twice the price of excellent tea from India or China.

## SPONTANEOUS COMBUSTION

Causes a Big Fire Near Minerva—E. T. Boyd Loses a Large Barn and Other Property.

Mr. E. T. Boyd's big stock and tobacco barn near Minerva was discovered on fire at noon yesterday. The flames had gained such headway that it was impossible to check them, and the building was soon entirely destroyed.

The contents consisted of twenty-five tons of hay, 10,000 pounds of tobacco and farm implements of every description, none of which was saved. A crib near by, containing from fifty to one hundred bushels of corn, was also destroyed.

Mr. Boyd's fine stallion, Mason Chief, by Harrison Chief, was in the barn when the fire was discovered, but was gotten out and saved.

It is thought the fire was the result of spontaneous combustion in the large quantity of hay stored in the building. Mr. Boyd can account for it in no other way.

The buildings were valued at \$1,200 and were insured for \$900 in the Farmers' Home Mutual Aid Association of this county. The contents were not insured. The total loss will reach about \$2,500.

A BIRMINGHAM, Ala., paper says the last of thirteen men, who, during the war, in blasphemous mockery, impersonated Christ and his twelve Apostles at the Last Supper during a drunken debauch, was a few days ago found dead in the gutter. Every man of the thirteen met with a tragic death, and not one of them received Christian burial.

THE first case ever tried at Evansville, Ind., under the Civil Rights law, ended a few days ago. Last May, Charles Sheldon, a wealthy colored citizen of that place, visited Eugene Robinson's Floating Palace and demanded the best seat. He was charged \$100 for it, which sum he paid. After taking his seat and glancing over the palace, Sheldon took his departure, and brought suit against Manager Robinson for the purchase price of his ticket, together with damages. After a five-days' trial of the case a verdict in favor of Robinson was rendered.

DIED, in Jackson, Mich., October 17th, 1890, Annie, wife of William Young, and daughter of Elder Jesse A. Holton, of Miami, Mo., formerly of this county. A little more than a year ago she was a beautiful and happy bride. To-day she sleeps with her twin babes, who died a week before she did. She leaves a devoted young husband and many friends and relatives, both in this State and Missouri, who are deeply grieved that a life so young and full of hope should go out. She died as the Christian dies, and many loved ones will welcome her in "The Beautiful Land."

A PROMINENT physician and old army surgeon in eastern Iowa was called away from home for a few days. During his absence one of the children contracted a severe cold, and his wife bought a bottle of Chamberlain's Cough Remedy for it. They were so much pleased with the remedy that they afterwards used several bottles at various times. He said, from his experience with it, he regarded it as the most reliable preparation in use for colds, and that it came the nearest being a specific of any medicine he had ever seen. For sale by Power & Reynolds, druggists.

SAYS the Paris Kentuckian: "It is worthy of record that Dr. A. H. Wall, ex-Bourbon, of Maysville, has after several months trial left off the use of tobacco, to which he was addicted 71 years, or since he was aged eight years. He said: 'You see I have gained in health, being several pounds heavier. It was, however, a great trial for me.' The doctor's kindly ministrations as a Confederate surgeon and as a physician in civil life has given him many well-wishers. His only son, Judge Wall, never used tobacco. Their delightful new home on Front street in Maysville, has a fine view of the passing trains, the steamers and the surrounding hills."

THE Lexington Leader speaking of the death of Miss Emma Schumann, mentioned a few days ago, says: "Hundreds now are grieving wherever she was known, over the going out of a fair young life so full of promise, so full of glorious melody. That her rich God-given voice should be stilled to all earthly ears is a bitter thought. She sung with no abatement of her power up to three months ago, and friends hoped that the acute bronchitis, to which she had fallen a victim, would be overcome. She had been for a year or two first soprano in Christ Church choir, and was known as one of the finest vocalists in this part of the State."

## For the Farmer

Rye is a grain that has long been more neglected than any other, excepting, perhaps, buckwheat. It is emphatically the crop for poor land and poor farmers, yielding something where wheat would be an entire failure.—Exchange.

The United States furnishes England with 30 per cent. of all her imported wheat, 62 per cent. of her corn, 66 per cent. of her bacon, 88 per cent. of her hams, 96 per cent. of her lard, 71 per cent. of her beefs and 93 per cent. of her imported fresh beef. Bread and meat would cost high in England if John Bull should refuse to import American farm products.

Armour & Co., the great packers of Chicago, report that their total distributive sales for the year ending October 1 reached the enormous value of \$65,000,000. The number of hogs killed by this house during the period named was 1,450,000; cattle, 650,000; sheep, 350,000. The total ground area covered by their buildings is fifty acres; the total floor area in buildings, 140 acres; and the chill-rooms and cold-storage area is forty acres. The number of employees is given at 7,000, and the aggregate of wages paid, \$3,500,000.

## MINER'S MAXIMS

A Good servant and a bad servant may look enough alike to pass for twins, but watch the difference in their service. Same with good and bad shoes.

Shoes look so much alike, though the grades are wide apart.

Why is it? Why, they're made to look alike. It's the good coin that's counterfeited. You would not buy a poor shoe if it showed poor, of course; but it won't show poor till it's worn. Then service shows the shoe. Well, then, how's a man to tell? He can't do it.

Only thing to do is to go where they always sell good shoes and are careful of their reputation. If ten thousand people have crossed the old bridge in safety, it's reasonable to suppose it won't break down with you. If ten thousand pairs of shoes bought at MINER'S have proved to be good shoes, the ten thousand and first pair are not likely to be bad.

See the point? And, then, the good shoes don't cost a cent more than the other kind, when you buy them at MINER'S.
